Backend

Node.js

Tools

Git, GitHub, VS Code, npm

SUMMARY

Full-stack web developer with hands-on experience building responsive and interactive web applications using React.js, Node.js, and Tailwind CSS.

Skilled in modern UI design, REST APIs, frontend animations, and scalable web systems. Strong foundation in C, C++, Java, and problem-solving with a passion for creating real-world digital products.

SELECTED PROJECTS

Portfolio Website

HTML | CSS | Tailwind CSS | JavaScript

- Built a fully responsive personal portfolio website with modern UI/UX design.
- Implemented dark mode, smooth scrolling, and mobile-first layouts.
- Added interactive animations and transitions using CSS and JavaScript.
- Integrated authentication functionality including login and registration.

To-Do App

React.js | Node.js

- Developed a full-stack task management application with CRUD operations.
- Built RESTful APIs using Node.js and integrated them with a React frontend.
- Managed asynchronous API calls and dynamic state updates.
- Designed responsive layouts compatible across devices.

Student Result Management System

C++

- Created a console-based management system using OOP concepts.
- Implemented file handling for persistent data storage and retrieval.
- Added functionalities for grade calculation and student record management.
- Designed efficient menu-driven workflows for better usability.
